

As part of our efforts to keep everyone safe, and to do our part in social distancing, “flattening the curve” and help stop the possible spread of COVID-19, we will be temporarily closing Community Treasures, A GMS community support program. We will be reassessing this after 30 days.

We do not make this decision lightly, as we know it impacts many of you in many ways. Please know that we are doing this out of an abundance of caution, and hope that we can all be back to our regular routines as soon as possible.

Thank you, and please be safe through this unprecedented situation.

Terri Scott
